31st October 2023

Dear Sir / Madam,

Establishment of proposed Condition G3 Network Change proposed by Access Beneficiary: Changes to Platform Stop Marks for use by GWR Class 387 (the “Proposed Network Change”)

Each capitalised term used hereunder and not otherwise defined, shall have the meaning given to such term, and all Conditions referred to hereunder are to Conditions, in each case, in the HAL Network Code, the latest version of which is published on our website.

In accordance with Condition G7.2, the consultation period for the Proposed Network Change has now ended and I am to advise that any objection, comment or query received in connection with the Proposed Network Change has been satisfactorily resolved.

If you consider that any matter relating to the Proposed Network Change has not been resolved, please respond to this Notice with your comments within 21 days of the date of this Notice.

Where no such response is received, the Proposed Network Change shall become an “Established Network Change”, as defined in Part G of the HAL Network Code. The works necessary to achieve this Established Network Change will then be undertaken. Should there be any proposed future variations to such Established Network Change, I will contact you again.

Thank you for your co-operation in processing this Proposed Network Change.

Yours faithfully,

Paul Quilter
