## Preface

### (This is not part of the Conditions of Use)

1. This edition replaces the 1 April 2007 edition.
2. Conditions of Use and airport charges for Heathrow Airport Limited are contained in this booklet. The main revisions, effective 1 April 2008, to note are:
  - 2.1. There are increases in the landing charges, departing passenger charges and parking charges. Please refer to the Schedule of Charges for the precise timing of the increases.
  - 2.2. An Air Navigation Services charge is now included in the Landing Charge, with effect from 1 July 2008.
  - 2.3. The emissions element of the landing fees has been increased to GBP 1.92 per kg of NO<sub>x</sub>, double the rate of increase of the underlying landing charge, based on the Aircraft's Ascertained NO<sub>x</sub> Emission (see paragraph 1.1.24), with effect from 1 July 2008.
  - 2.4. The remote stand rebate which applies to both arriving and departing passengers using remote stands has been increased. Please refer to the Schedule of Charges for the precise timing of the increases.
  - 2.5. The minimum charge on departure has been increased. Please refer to the Schedule of Charges for the precise timing of the increases.
3. Details of the conditions of use and airport charges at Gatwick, Stansted, Southampton and BAA's Scottish airports (Glasgow, Edinburgh and Aberdeen), are available on the BAA internet site at [www.baa.com/cou](http://www.baa.com/cou).
4. Navigation services at the airport (specifically aerodrome control and certain approach functions) are provided by National Air Traffic Services (NATS) and up to 31 March 2008 were charged for by NATS directly to airlines. Under a Department for Transport decision published 24 July 2007 these services will now be included in the cost base covered by BAA's airport charges from 1 April 2008 onwards and no separate charges will be made by NATS for these services.

## Heathrow Airport Limited - Conditions of Use

These Conditions are effective from 1 April 2008.

For any queries regarding invoicing please contact the BAA Business Support Centre (see paragraph 2.3.8), any other queries should be addressed in the first instance to Heathrow Airport Finance Director's office.

Copies of permits (and the conditions attached thereto) under which Heathrow Airport Limited is permitted to levy charges by the Secretary of State pursuant to the provisions of Sections 38 and 53 of the Airports Act 1986 are available from the airport company.

## 2 Conditions

The use of the airport is subject to the following conditions:

### 2.1 General

#### Compliance

- 2.1.1 Compliance with the local flying restrictions and remarks published from time to time in the AD section of the United Kingdom AIP; and
- 2.1.2 Compliance with instructions, orders or directions published from time to time by the airport company, which may supplement vary or discharge any of the terms and conditions of use set out herein.

#### Liability

**Neither BAA Limited, nor the airport company, nor their respective servants or agents shall be liable for the loss of or the damage to the aircraft, its parts or accessories or any property contained in the aircraft, occurring while the aircraft is on the airport or is in the course of landing or taking-off at the airport, arising or resulting directly or indirectly from any act, omission, neglect or default on the part of BAA Limited, the airport company or their servants or agents unless done with intent to cause damage or recklessly and with knowledge that damage would probably result. In any event neither BAA Limited nor the airport company nor their respective servants or agents shall be under any liability whatever for any indirect loss and/or expense (including loss of profit) suffered by an operator.**

### 2.2 Operational

#### Slots

- 2.2.1 No operator shall operate to or from Heathrow Airport without first obtaining a slot from Airport Coordination Limited (ACL).
- 2.2.2 If in the opinion of the airport company an operator regularly or intentionally fails to adhere to an allocated slot (either arrival or departure) for reasons which are not beyond its control, then having first given the operator an opportunity to make representations, the airport company may adopt such measures as it deems appropriate to ensure that the operator adheres to its allocated slots, such measures may include the airport company prohibiting the operator or particular services of the operator from the airport for a fixed period of time. The services of an operator prohibited from another airport owned by BAA Limited in accordance with the equivalent provisions of that airport's Conditions of Use shall not without the express permission of the airport company be relocated to the airport.

#### Peak Congestion

- 2.2.3 Any operator of General or Business Aviation, or whole plane cargo services, who operates at Heathrow without the prior permission of the airport company during such periods of peak congestion, as have been notified by National Air Traffic Services in the United Kingdom AIP or a subsequent supplement, for the airport, may be prohibited by the airport company from operating during such periods of peak congestion for a minimum period of 30 days, unless in the opinion of the airport company the aircraft was required to land at the airport because of an emergency or other circumstance beyond the control of the operator.

#### Use of Chapter 2 aircraft

- 2.2.4 Operators should note that civil subsonic jet aircraft with a take off mass of 34,000kg or more (or with more than 19 passenger seats) operating to the UK are required to be certificated as Chapter 3 or Chapter 4 in accordance with the Aeroplane Noise Regulations 1999. Aircraft not meeting this requirement are prohibited from operating to any UK airport unless granted an exemption by the UK Civil Aviation Authority (see [www.caa.co.uk/erg/avpolicy](http://www.caa.co.uk/erg/avpolicy)).

**Ground handling**

- 2.2.5 At Heathrow Airport all ground handlers are issued with a licence to operate. This licence contains mandatory performance standards to which the ground handlers must adhere. Further information on ground handling licences is available from the airport company.

**De-icing**

- 2.2.6 Airlines operating at Heathrow Airport during the winter schedule must have a contract in place for de-icing of their aircraft with an approved supplier.

**Policing**

- 2.2.7 At Heathrow Airport, where any flight imposes an additional policing requirement over and above the services normally provided at the airport, the Managing Director of the airport company shall require the operator to pay a charge of GBP 200 per turnaround.

**Noise supplements**

- 2.2.8 At Heathrow, aircraft departures which infringe noise thresholds or aircraft of operators that flagrantly or persistently fail to operate in accordance with Noise Preferential Routes (NPR's) prescribed for the airport, both as measured by the noise and track monitoring system operated by the airport company, may be subject to supplements promulgated in directions published by that airport company.

**Passengers with reduced mobility**

- 2.2.9 Until the date when BAA takes accountability for the PRM assistance service under EU legislation, to be specified in an Airport Notice, the operator or its handling agent shall provide assistance through the terminal building to and from the relevant aircraft to all arriving and departing passengers with reduced mobility or other disability as defined by section 1 of the Disability Discrimination Act 1995, including where requested the provision of a wheelchair service. The cost of providing such a wheelchair service or other assistance is to be absorbed by the operator or its handling agent as an overhead and must not be charged to the passenger requiring the wheelchair service or other assistance at the airport. The operator or its handling agent is not required to provide a wheelchair service or other assistance at any time before the passenger has checked in on the passenger's flight out of the airport nor at any time after the passenger has been assisted to the baggage reclaim hall on the passenger's flight into the airport. The operator will indemnify the airport company and keep the airport company fully indemnified against all actions, claims, proceedings, costs and damages (including all damages or compensation paid by the airport company on the advice of its legal advisers to compromise or settle any claim) and all legal costs or other expenses arising out of any breach of this condition or out of any claim by a third party based on any facts which if substantiated would constitute such a breach.

**Use of common departure lounges**

- 2.2.10 At Heathrow Airport, where a single, shared departures lounge (Common Departure Lounge) for domestic and international passengers is in use, the airport authority will operate a biometric enrolment and validation system for persons travelling on flights departing to destinations in the United Kingdom. This is to mitigate any potential risk of persons entering the United Kingdom illegally.

The airline operator, or its handling agent must provide best efforts to inform\* its domestic passengers that they will be required to enrol and validate their identity using such approved methods as are prescribed by the airport company and notified to airlines in order to proceed beyond the ticket presentation point and subsequently to board their flight. Passengers who refuse to enrol and validate their identity will be refused entry beyond the ticket presentation point and will be unable to board their flight from the applicable terminal.

\*[As a minimum, the airline operator must state these conditions on their website, and notify passengers at ticket point of sale within the airline operators control.]

## 2.3 Payment

- 2.3.1 The operator shall pay the appropriate charges for landing, taking-off and parking of an aircraft, as set out in the Schedule of Charges. The operator shall also pay for any supplies, services or facilities provided to him or to the aircraft at the airport by or on behalf of the airport company at the charges determined by the airport company. All charges referred to in this paragraph shall accrue on a daily basis and shall become due on the day they were incurred and shall be payable to the airport company on demand and in any event before the aircraft departs from the airport unless otherwise agreed by the airport company (which agreement may be withdrawn at any time at the discretion of the airport company) or unless otherwise provided in the terms for payment included in the invoice for such charges.
- 2.3.2 Payments shall be made without deductions (including taxes or charges). If the applicable law requires any tax or charge to be deducted before payment the amount shall be increased so that the payment made will equal the amount due to the airport company as if no such tax or charge had been imposed.
- 2.3.3 All sums payable to the airport company are exclusive of VAT which shall, where applicable, be paid in addition at the rate in force at the relevant tax point.
- 2.3.4 All sums due which are not paid on the due date shall bear interest from day to day at the annual rate of 3% over the current Barclays Bank plc daily rate from the date when such sums were due until the date of payment (both dates inclusive).
- 2.3.5 Where an aircraft operator has not used the airport in the previous 12 months (as calculated from the date that the operator proposes to commence operations), the Managing Director of the airport company may at his discretion, require a deposit to be lodged with the airport company before flights by that operator commence. Any such deposit shall be paid to the airport company and shall be in such a sum as the Managing Director shall consider to be equivalent to the anticipated charges that the aircraft operator shall incur (based on the anticipated number and type of flight planned) for 3 months of operations by that operator. Such deposit or the balance then remaining shall be refunded to the operator when 12 months of service have been completed in accordance with these Conditions of Use or when the operator ceases to operate any flights from the airport (whichever shall first occur) subject to the right of the airport company (which is hereby reserved) to set off against any such deposit any appropriate charges that have not been settled in accordance with the above provisions.
- 2.3.6 Under the Civil Aviation Act 1982, the airport company has the power to detain aircraft where default is made in the payment of airport charges. The power relates to aircraft in respect of which the charges were incurred (whether or not they were incurred by the person who is the operator of the aircraft at the time the detention begins) or to any other aircraft of which the person in default is the operator at the time the detention begins.
- 2.3.7 The operator shall not without the express written consent of the airport company be entitled in respect of any claim he may have against the airport company or otherwise to make any set off against or deduction from the charges provided for in these conditions. He must pay such charges in full pending resolution of any such claim.
- 2.3.8 Any queries relating to invoices should be logged with the Credit Control Department at the BAA Business Support Centre within 10 days of the invoice date. Contact numbers for the BAA Business Support Centre are shown on our invoices and statements.

## 3 Airport Charges

### 3.1 Charge on Landing

- 3.1.1 At Heathrow the relevant charges for the landing and the subsequent take-off of aircraft as set out in the Schedule of Charges are payable.
- 3.1.2 The charge on landing will be assessed and payable on the basis of the Maximum Total Weight Authorised (see paragraph 1.1.5) as recorded by the airport companies on 1 April of each year and the Aircraft's Ascertained NO<sub>x</sub> Emission (see paragraph 1.1.24).

#### **Base charge on landing - Chapter 3 and non - jet aircraft**

- 3.1.3 The base charges on landing as set out in the Schedule of Charges, will apply to jet aircraft over 16 metric tonnes which meet the noise certification standards of ICAO Annex 16 Chapter 3. When applying for these base charges, documents attesting that the aircraft complies with Chapter 3 noise certification standards must be produced. If they are not, the aircraft may be treated as a Chapter 2 aircraft for charging purposes.
- 3.1.4 Non-jet aircraft and all aircraft not exceeding 16 metric tonnes will automatically qualify for the base charges and therefore no application need be made under paragraph 3.1.3.

#### **Non chapter 3 aircraft**

- 3.1.5 The Chapter 3 base charge on landing, calculated in accordance with the Schedule of Charges, will be increased to three times for aircraft failing to meet Chapter 3 noise certification standards as a minimum or any non certificated aircraft.
- 3.1.6 Application for the base charge on landing or Chapter 2 surcharge, and the relevant documentation, should be sent to:

Finance Director  
Heathrow Airport Limited

#### **Chapter 3 minus or Chapter 4 charge**

- 3.1.7 This charge will apply to those jet and non-jet aircraft in excess of 16 metric tonnes which,
- 3.1.7.1 on BOTH ARRIVAL AND DEPARTURE, have a Quota Count of 0.25, 0.5 or 1, or are exempt, as described under Section 3 of the London/Heathrow Noise Restriction Notice, currently published as a supplement to the UK AIP by the Civil Aviation Authority on behalf of the Department for Transport, or
- 3.1.7.2 were first put into service on or after 1 January 2006 and meet the noise certification standards of ICAO Annex 16 Chapter 4. Documents attesting that the aircraft complies with Chapter 4 noise certification standards must be provided to the airport company.
- 3.1.8 The above supplement is revised twice a year, and until an aircraft type is included in the supplement, the airport company will use its own discretion in classifying the Quota Count of that aircraft type. In the event of this happening, no subsequent retrospective claim for a lower charge on landing will be considered by the airport company.

#### **Chapter 3 high charge**
