Our Health and Safety Policy Statement

At Heathrow we value the health and safety of colleagues, passengers, and anyone else affected by the airport’s activities, above all else. Our focus on health and safety is not just the right thing to do, it is the foundation of an efficient operation, a secure airport, and a sustainable business.

The Executive Team share a commitment to provide safe and healthy working conditions for the prevention of work-related injury and ill health. We are all responsible for setting the highest health and safety standards and for showing strong leadership in keeping others safe from harm.

At Heathrow, we care for each other. If we see something that could injure someone, we take action to make it safe and then report it as a close call. If we are asked to do something that could harm ourselves or others, we will stop and report it to our manager or supervisor. Action will then be taken to ensure that the activity can be either be done safely, or not at all.

If we all notice and care by reporting incidents, work-related ill health and close calls, and share what we know about working safely, we will understand how we are doing today and make things better for tomorrow through continual improvement of our fire, health and safety management system.

John Holland-Kaye,
Chief Executive Officer
December 2022

WE WILL ACHIEVE THIS BY

- **Consulting** with our colleagues, recognised trade unions, business partners and supply chain so everyone understands how to keep themselves and others safe and healthy.

- **Committing** to fulfil legal and other requirements, understanding our risks and acting to prevent accidents, work-related ill health and fire-related incidents.

- **Prioritising** and effectively eliminating hazards and reducing health and safety risks.

- **Investing** adequate resources, including time, money and people, to ensure we meet our health and safety objectives.

- **Ensuring** a culture of openness where colleagues can raise concerns and know they will be listened to.

- **Providing** colleagues and third parties, as appropriate, with the right information, instructions, training, tools and equipment to work safely.

- **Integrating** health and safety into every business decision and by setting and reviewing objectives.

By following these commitments, we can be certain that we have done everything we can to ensure everyone goes home safe and well.
