

HOW TO AUTHENTICATE YOUR TRIP

1. Visit heathrow.liftshare.com, register your details and add your journey.

2. You will then see a list of matches making a similar commute; you can message the matches and 'ask to share'. Once accepted a team will be created.

3. Download and print off your Liftshare Team permit on your 'Liftshare Teams' tab, and then display it in your cars windscreen.

4. Download the Liftshare Companion app.

5. Authenticate your trip on the Liftshare app each time you share. The driver simply selects the 'Driver' option, this will generate a QR code which the passenger(s) can then scan.
