Consultation..... 2

Decision..... 3

Consultation

Further to the consultation announced on 4th November 2011 we have consulted with the community on the price increase effective 1st April 2012 to 30th March 2013. Oxford Economics forecasted RPI increases for this period of 2.4%.

Therefore we have consulted on a price increase effective from 1st April of:

£2.74 (RPI increase of 2.4% 1st April 2012 to 30th March 2013).

This has been calculated using the published Oxford Economics RPI data. This is in accordance with the steps outlined in the previous consultation and decision documents.

An RPI calculated increase will follow effective 1st April 2013 and we will commence consultation thereon in the Autumn of 2012.

Decision

A conference call was held on 8th November to discuss this increase. Responses were received from National Express and First Group.

The price effective from 1st April 2012 shall be £2.74 per movement.

The price increase due from 1st April each year shall be included in the General Notice for Non Regulated Charges issued in December of each year.
