

## Fly Quiet and Clean

HCNF 20/09/2017

**Heathrow**  
Making every journey better

# Fly Quiet and Clean

Family	Metric	Weight
Strategic noise metrics	Chapter number	50%
	QC/seat/mvt	50%
Strategic emissions metrics	CAEP (1 engine)	50%
	NOx/seat/mvt	50%
Operational metrics	CDA	150%
	Track keeping	150%
	“Late or early movement”	60%

# Developments since (re)launch in May 2017

Fly Quiet and Clean league tables and explanatory notes, as well as those of Fly Quiet (predecessor programme) are available on <http://www.heathrowflyquietandclean.com/>

Plenty of engagement is going on with airlines, especially with those that have experienced negative media coverage after the FQ&C launch

- One operator's 777 fleet CDA compliance has gone up from 24% in April to ~80% over the last four weeks
- Another operator's track keeping has gone from 92% in Q1 to ~98% over the last 30 days

Publication of the Q2 league table is currently planned for w/c 25 September 2017
